

# Possible follow-up for next network – 17-19/10/2023

- Identified needs for shared databases
  - IAS – NIAS – mass spectrometra.
- Database of activities
  - Path to document the db (focal points) not clear for all – See Drago's presentation.
  - Reminder to update the db within 6 months.
- Collaborations – harmonization
  - DE-CH printing inks.
  - DE-FR rubbers. From collaboration to harmonization.
- Natural compounds
  - Many activities ongoing on articles.
  - Inform the network due to the ongoing activity at Efsa that more examples are available.
- Prioritization
  - *In silico* tools.
- First thoughts on the revision of the FM legislation
  - More opportunities to come where inputs will be possible.
