IV. Scientific topic(s) for discussion

Newsletters (Day 1): The working group reviewed the draft of the last two EFSA Plant Health Horizon Scanning Newsletters, covering the period 1-31 July and 1-31 August 2023, including links to the articles published and the draft text of the “Main issues” section.

The working group agreed on the main issues that had been added, highlighting news about the following pests:

- August newsletter: *Aleurocanthus spiniferus*, *Ceratocystis ficicola*, *Elsinoë fawcetti*, *Potato rugose stunting virus*, *Selenothrips rubrocinctus* and *Xylella fastidiosa*.
- September newsletter: *Tomato brown rugose fruit virus* and *Xylella fastidiosa* subsp. *multiplex*.

Further issues were proposed and agreed for inclusion among participants.

PeMo (Day 2):

Aponychus corpuzae, *Chrysaster ostensackenella*, *Pythium sylvaticum* and *Stigmaeopsis nanjingensis* were identified as suitable pests to conduct the PeMo screening. *Pythium sylvaticum* scored positive and was added to the main issues. The PeMo results were included in the August newsletter.

Leptodelphax maculigera and *Tetranychus truncatus* were identified as suitable pests to conduct the PeMo screening. *Tetranychus truncatus* scored positive and was added to the main issues. The PeMo results were included in the September newsletter.

Furthermore, the PeMo experts reviewed with Olaf Mosbach-Schulz the results of the analysis conducted on the effectiveness of the new PeMo scheme recently proposed. The changes possible to be applied without major changes to the protocol were identified and improvements will be then shared with contractor building the online tool.

I. Welcome and apologies for absence

The Chair welcomed the participants.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

IV. Scientific topic(s) for discussion

Newsletter (Day 1): The working group reviewed the draft of the last EFSA Plant Health Horizon Scanning Newsletter, covering the period 1-31 April 2023, including links to the articles published and the draft text of the “Main issues” section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Spodoptera frugiperda*, and *Xylella fastidiosa*.

Further issues were proposed and agreed for inclusion among participants.

The second part of the meeting served to test the platform under construction dedicated to the newsletter preparation: the experts provided feedbacks and ideas for improvements. The new way of working was discussed among participants.

PeMo (Day 2): *Atherigona orientalis*, *Heterodera zea*, *Psacotha hilaris hilaris*, *Watermelon crinkle leaf-associated virus 1* were identified as suitable pests to conduct the PeMo screening. The first two pests scored positive and were added to the main issues. The PeMo results were included in the newsletter.

Newsletter (Day 3): The working group members who could not participate during Day 1, provided their contributions to the newsletter finalization and the new platform implementation.

V. Next meeting

The next meeting will be held on 14 and 16 June 2023, via web conference.

Location: Webconference

Attendees:

- Working Group Members:
Andy BOURKE
Thierry CANDRESSE
Josep JAUQUES
Michael JGER

- PeMo:
Michela CHIUMENTI
Eduardo DE LA PEÑA

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

IV. Scientific topic(s) for discussion

PeMo (Day 1): The working group members reviewed the results of the PeMo conducted on the 48 pest species selected as reference pests for updating the methodology. Each pest was screened by two different persons and disagreements reviewed and solved during the group discussion. The collected feedbacks helped also improving the PeMo user guide.

Newsletter (Day 2): The working group reviewed the draft of the last EFSA Plant Health Horizon Scanning Newsletter, covering the period 1-31 March 2023, including links to the articles published and the draft text of the "Main issues" section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Lissachatina fulica*, *Meloidogyne luci*, *Tomato mottle mosaic virus* (ToMMV) and *Tomato brown rugose fruit virus* (ToBRFV), *Trioza erytrae*.

Further issues were proposed and agreed for inclusion among participants.

PeMo (Day 3): *Barley virus G*, *Erysiphe corylacearum*, *Mal de Rio Cuarto virus*, *Tomato chlorotic dwarf viroid* were identified as suitable pests to conduct the PeMo screening.

Erysiphe corylacearum scored positive and were added to the main issues. The PeMo results were included in the newsletter.

No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

Newsletter (Day 1): The working group reviewed the September draft of the EFSA Plant Health Horizon Scanning Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Bactrocera dorsalis*, *Clavibacter tessellarius*, *Fusarium brachygibbosum*, *Pochazia shantungensis*, *Southern rice black-streaked dwarf virus*, *Tomato brown rugose fruit virus*, *Xylotrechus chinensis*.

Further issues were proposed and agreed for inclusion among participants.

PeMo (Day 2): *Clavibacter tessellarius* and *Southern rice black-streaked dwarf virus* were identified as suitable pests to conduct the PeMo screening and both received a negative scoring. The PeMo results were included in the newsletter.

Six more pests were tested for potential inclusion as reference negative pests: *Colletotrichum fructicola*, small-spored *Alternaria*, *Coleosporium phellodendri*, non-EU potato virus A, *Amathynetoides nitidiventris*, *Penthimiola bella*.

No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

Newsletter (Day 1): The working group reviewed the August draft of the EFSA Plant Health Horizon Scanning Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Attacus atlas*, *Citrus yellow vein clearing virus*, *Pepper yellow mosaic virus*, *Sweet potato feathery mottle virus*, *Anoplophora glabripennis*, *Popillia japonica*, *Pantoea stewartii* subsp. *stewartii*, *Tomato leaf curl New Delhi virus*.

Further issues were proposed and agreed for inclusion among participants.

PeMo (Day 2): *Attacus atlas*, *Diaporthe corylicola*, *Pepper yellow mosaic virus* and *Sweet potato feathery mottle virus* were first checked for suitability to conduct the PeMo screening. *Diaporthe corylicola* was excluded for absence of host in the assessment area. Among the other three, only *Attacus atlas* received a negative scoring, and the PeMo results were included in the newsletter

1. Welcome and apologies for absence

The Chair welcomed the participants. Apologies were received from Marianne LOISEAU and Conor MCGEE.

2. Adoption of agenda

The agenda was adopted without changes.

¹ As defined in Article 17 of the Decision of the Executive Director on the selection of external experts:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

Newsletter (Day 1): The working group reviewed the July draft of the EFSA Plant Health Horizon Scanning Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Litylenchus crenatae mccannii* (beech leaf disease), *Agrilus planipennis*, *Bactrocera dorsalis*, *Xylella fastidiosa* and its vectors, *Lycorma delicatula*. For this edition, no emerging pests were found suitable for PeMo screening and therefore Day 2 of the meeting was cancelled.

5. Next meeting date

The date and time of the 56th meeting of the working group is scheduled for 8-9 September 2022, from 14:00 to 16:00.

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group experts dedicated to the activity of PeMo screening were introduced to the project, current practices and future developments.

A presentation on the methodology and on the use of template and datasets was provided and a series of examples consulted together.

Finally, the methodology was tested on three case studies: each expert presented her/his results and shared doubts and proposals with the other participants.

5. Next meeting date

The date and time of the 54th meeting of the working group is scheduled for 10 August 2022 from 14:00 to 16:00.

1. Welcome and apologies for absence

The Chair welcomed the participants.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and

¹ As defined in Article 17 of the Decision of the Executive Director on the selection of external experts:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the 54th draft of the EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section. The working group agreed on the main issues that had been added, highlighting news about the following pests: *Bactrocera dorsalis*, *Diaphorina citri*, *Xylella fastidiosa*, *Aleurocanthus spiniferus*, *Tomato brown rugose fruit virus*, *Lycorma delicatula* and *Moniliophthora roreri*.

The working group also considered the 33rd draft of the EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional articles suggested by the experts was discussed for both the Newsletters.

5. Next meeting date

The date and time of the 44th meeting of the working group is scheduled for 5th October 2021 from 14:00 to 16:00.

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the 53rd draft of the EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section. The working group agreed on the main issues that had been added, highlighting news about the following pests: *Ralstonia pseudosolanacearum*, *Popillia japonica*, *Tomato leaf curl New Dehli virus* and *Garella musculana*. After the working group meeting another main issue was also added regarding *Tomato brown rugose fruit virus*.

The working group also considered the 32nd draft of the EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional articles suggested by the experts was discussed for both the Newsletters.

5. Feedback on the presentation and discussion of PeMoScoring results at the June and July PAFF meetings

Experts were informed regarding the PeMoScoring presentation at the PAFF meeting on 22nd June. Further discussion will be organized by the European Commission in view of a possible new pest categorisation mandate.

6. Next meeting date

The date and time of the 43rd meeting of the working group is scheduled for 10th September 2021 from 14:00 to 16:00.

1. Welcome and apologies for absence

The Chair welcomed the participants.

2. Adoption of agenda

Item 5 on the feedback from the PeMoScoring presentation at the PAFF meeting on 22 June was postponed to the 42nd meeting of the working group. The amended agenda was adopted.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and

¹ As defined in Article 17 of the Decision of the Executive Director on the selection of external experts:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the 52nd draft of the EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the “Main issues” section. The working group agreed on the main issues that had been added, highlighting news about the following pests: *Candidatus Phytoplasma palmae*, *Riparsiella hibisci*, *Tomato brown rugose fruit virus*, *Litylenchus crenatae mccannii* and *Diaporthe* sp. 1-MI.

The working group also considered the 31st draft of the EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional articles suggested by the experts was discussed for both the Newsletters.

5. Next meeting date

The date and time of the 42nd meeting of the working group is scheduled for 30th July 2021 from 09:00 to 11:00.

1. Welcome and apologies for absence

The Chair welcomed the participants.

2. Adoption of agenda

The agenda was adopted adding the Report review to AOB.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and

¹ As defined in Article 17 of the Decision of the Executive Director on the selection of external experts:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the 51st draft of the EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section. Following the suggestions by the working group experts to add 3 paragraphs in the main section of the Media Newsletter No.51, the working group agreed on the addition of 3 main issues, highlighting news about the following pests: *Colletotrichum australianum* sp. nov, *Goplane dioscoreae* and *Xanthomonas translucens* pv. *undulosa*.

The working group also considered the 30th draft of the EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional articles suggested by the experts was discussed for both the Newsletters.

As far as the PeMoScoring is concerned, the updated methodology was presented to the working group meeting, as well as the results of the ongoing exercise in view of the presentation for the PAFF meeting.

5. Next meeting date

The date and time of the 41st meeting of the working group is scheduled for 5th July 2021 from 14:00 to 16:00.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and

¹ As defined in Article 17 of the Decision of the Executive Director on the selection of external experts:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the 42nd draft of the EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group also considered the 21st draft of the EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional scientific articles suggested by the experts was discussed for both the Newsletters. Some structural changes were proposed for the media Newsletter. The conclusions reached are listed below:

- the selected articles' order remains chronological as usual
- articles on trades and exchange of unknown plant material, even if interesting, are out of the scope of this mandate and cannot be addressed in the current newsletter. The research strategies adapted to find items on this topic are not currently implemented in the platform. This point could be raised internally in EFSA and then with the EC if needed.
- the addition of a *last-minute update* paragraph for extremely important articles published in the first days of the starting month, was discussed and approved. Further developments could follow.

5. Next meeting date

The new date and time of the 32nd meeting of the working group scheduled for 8th October 2020 from 14:00 to 16:00 was confirmed after the meeting.

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 35th EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the “Main issues” section. Additional articles have been suggested by the experts and consequently added.

The working group also considered the draft 14th pilot EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database.

The inclusion of three scientific articles was carefully discussed with the experts. The final decision was to keep two of the discussed articles, even if they do not comply completely with the usual criteria for selection. Indeed, one article focuses on copper not protecting tobacco against *Xylella fastidiosa*. Normally, only articles on control measures that are effective against a pest are included. Nevertheless, given the specific case (*Xylella fastidiosa*), the article was considered of interest to risk managers.

The second article reported the mutualistic interaction between the *Southern tomato virus* and the tomato plant. In general, articles are included in the newsletters when regarding organisms that are known to be pathogenic or whose pathogenicity is evident. However, in this case, the information on the non-pathogenicity seemed of interest as a follow-up to what reported by previous editions. The following PAFF on 19th of February confirmed the articles’ relevance, during the Newsletters’ presentation.

The article regarding *Cladobotryum protrusum*, a fungus which parasites cultivated mushrooms, already discussed during the 23rd Working Group, was finally included in the 14th pilot Scientific Newsletter.

In conclusion, as commonly agreed, the new filter “Annex II Part A Begomoviruses” was created on the Medysis platform, in order to monitor the Begomoviruses listed in the annex IIA of Commission Implementing Regulation (EU) 2019/2072.

5. Next meeting date

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 34th EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group also considered the draft 13rd pilot EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional scientific articles suggested by the experts was discussed. In particular, one article included in the Scientific Newsletter, regarding *Diaporthe sinensis*, a fungus which parasites cultivated mushrooms, was examined. Indeed, this is the first reporting of a mushrooms' pest in the Newsletter, while normally it only concerns plants' pests. The case was reported to the European Commission, that suggested to add the article, waiting for MS's consideration.

However, after the meeting, it was noticed that the article was only published in January, therefore it will not be included in the current newsletter but in the successive one.

5. Next meeting date

1. Welcome and apologies for absence

The Chair welcomed the participants.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and

¹ As defined in Article 17 of the Decision of the Executive Director on the selection of external experts:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 30th EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group also considered the draft 9th pilot EFSA Plant Health Scientific Newsletter that includes links to articles found in the MEDISYS platform as well as articles found through the searches carried out in the Scopus database. The inclusion of additional scientific articles suggested by the experts was discussed.

5. Next meeting date

The date of the 20th working group meeting scheduled for the 3rd of October 2019 was confirmed. The anticipation of the meeting initially scheduled between 14.00 to 16.00, at 13.00, was proposed by the experts and confirmed after the meeting.

this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 24th edition of the EFSA Plant Health Media Newsletter, including links to the articles published and the draft text of the "Main issues" section.

The working group also considered the draft 3rd pilot edition of the EFSA Plant Health Scientific Newsletter.

The inclusion of additional scientific articles was discussed, leading to the conclusion that for some journals the "current issue" as well as "latest articles" or "posted/first published online" should be followed by specific feeds. The revision of the sources so far implemented in MEDISYS will be carried out in this direction.

The experts observed that, in some cases, the abstract lines included in the newsletter do not represent the core information of the articles. This is due to the automated selection by the platform of the first few lines of the articles only. EFSA will report this to the JRC for consideration in future improvements of the platform.

The ongoing work (collaboration between ALPHA, AMU, SCER units and ANSES) for the verification of monitoring results through searches in PUBMED was presented to the working group.

5. Next meeting date

The working group meeting scheduled on 4th of April 2019 was confirmed.

Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 22nd edition of the EFSA Plant Health Newsletter including links to items found on media and the draft text of the main issue section.

The working group also reviewed the updated draft of the 1st pilot edition of the EFSA Scientific Plant Health Newsletter.

With regards to the pilot scientific newsletter, the working group commented on the sources, content of the selected articles and criteria for their inclusion in the newsletter, in particular for articles on not listed pests. This last point will be clarified at the next meeting.

The addition of scientific sources by the JRC is in progress as well as the validation by EFSA and ANSES of the results provided by MediSys. The comments and suggestions of the experts of the working group assist EFSA in this task.

³ <http://www.efsa.europa.eu/en/keydocs/docs/independencerules2014.pdf>

Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 21st edition of the EFSA Plant Health Newsletter including links to items found on media and the draft text of the main issue section.

The working group also reviewed the draft 1st pilot edition of the EFSA Scientific Plant Health Newsletter drafted following the template agreed with the European Commission. The draft included articles selected by the platform from the sources recently added by JRC whose work was still in progress.

Comments were raised by the experts underlining the need of developing criteria for the article inclusion in the scientific newsletter. As an example of this approach, the experts considered that among the scientific articles relating to research on new control methods, only those with immediate applicability should be included in the newsletter.

Another comment concerned the first lines of the articles, which should be as informative as possible. It was also suggested that the source ID automatically assigned to each article be replaced by the tool with the full name of the journal where the article is published.

5. Next meeting date

The working group meeting of 11 January 2019 was confirmed and experts confirmed their participation.

Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 19th edition of the EFSA Plant Health Newsletter including links to items found on media and the draft text of the main issue section.

The working group also revised the criteria to follow for the selection of pests/diseases to be highlighted in the “main issues” section. In particular, it was pointed out that the number of articles selected on a given pest/disease is not necessarily a criterion for retaining that pest/disease in the topics to be highlighted. As an example of this approach, experts considered that news related to the characteristics of the infested area (open air instead of nursery) should be highlighted even if in the country the pest/disease was already known to be present.

5. Next meeting date

The working group meetings of 29 October and 3 December 2018 were confirmed. Experts confirmed their participation.

1. Welcome and apologies for absence

The Chair welcomed the participants.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes² and the Decision of the Executive Director on Declarations of Interest³, EFSA screened the Annual Declaration of Interest and the Specific Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of

Interest at the beginning of this meeting.

4. Scientific topic(s) for discussion

The working group reviewed the draft 17th edition of the EFSA Plant Health Newsletter including links to items found on media and the draft text of the main issue section. The chair provided an update on the ongoing discussion with the European Commission on the template of the scientific newsletter. Following an initial exchange of views, a new template was sent to the European Commission for consideration.

5. Next meeting date

The working group meetings of 10 September, 4 and 29 October and 3 December 2018 were confirmed. Experts confirmed their participation.

Declaration of Interest and the Specific

Declaration of Interest filled in by the working group members invited for the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of Interest at the beginning of this meeting.

10. Scientific topic(s) for discussion

The working group reviewed the draft 16th edition of the EFSA Plant Health Newsletter including the links to items found on media and the draft text of the main issue section. Experts also reviewed the draft first pilot edition of the newsletter resulting from the monitoring of the scientific literature and expressed their views on the new template. In response to comments, the chair proposed to restructure the links to the papers and the main issue section following the template already used for the media newsletter and to provide both versions for EFSA internal validation. The criteria for articles and main issue selection were also revised.

The proposal for pest ranking was presented by Anses, partner in the Tasking Grant on Horizon Scanning. The experts expressed their views on the criteria for ranking. An updated version of the proposal will be provided by Anses for further discussion.

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

IV. Scientific topic(s) for discussion

Newsletter (Day 1): The working group reviewed the draft of the last EFSA Plant Health Horizon Scanning Newsletter, covering the period 1-29 February 2024, including links to the articles published and the draft text of the “Main issues” section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Phytophthora pluviales* and *Xylella fastidiosa*.

Further issues were proposed and agreed for inclusion among participants.

PeMo (Day 2):

Ophiovirus lactucae; *Ophiovirus ranunculi* ; *Phytophthora heteromorpha* sp. nov. and *Strawberry polerovirus 1* were identified as suitable pests to conduct the PeMo screening. *Phytophthora heteromorpha* sp. nov scored positive and was added to the main issues. The PeMo results were included in the newsletter. The PeMo results were included in the newsletter.

V. Next meeting

The next meeting will be held on 17 April 2024, via web conference.

Location: Webconference

Attendees:

- Working Group Members:

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

IV. Scientific topic(s) for discussion

Newsletter (Day 1): The working group reviewed the draft of the last EFSA Plant Health Horizon Scanning Newsletter, covering the period 1-31 March 2024, including links to the articles published and the draft text of the “Main issues” section.

The working group agreed on the main issues that had been added, highlighting news about the following pests: *Scirtothrips dorsalis* and *Xylella fastidiosa*.

Further issues were proposed and agreed for inclusion among participants.

PeMo (Day 2):

Hibiscus latent Fort Pierce virus, *Hibiscus latent Singapore virus* and *Tamarillo fruit ring virus* were identified as suitable pests to conduct the PeMo screening. None of the three pests scored positive. The PeMo results were included in the newsletter.

V. Next meeting

The next meeting will be held on 14 May 2024, via web conference.

30. Scientific topic(s) for discussion

EFSA presented the Horizon Scanning mandate and the tool (MedISys IT platform) used to screen news from media on pests that can be of concern for the EU territory. It included an overview of pests monitored, keywords, filters and newsletter template.

The suggestions provided by the experts to the “Main issues” section of the 12th edition of the newsletter were discussed. The criteria for articles selection were reviewed and clarified as well as the procedure for the newsletter validation. An improved text of the disclaimer was also agreed.

31. Any other business

Not Applicable.

32. Next meeting (s)

Based on the deadlines for sending the newsletters to the EC for discussion at the monthly PAFF meetings, the calendar of working group meetings in 2018 was updated and agreed by the experts.

The next web meeting is scheduled on 16 April 2018, 14:00-18:00.
