EFSA'S EXPERIENCE WITH DISCUSSION GROUPS

- Discussion Groups act as “learning systems” that allow EFSA to capitalise on stakeholders’ specialist knowledge in specific areas,
- Engagement tool for developing of efficient and harmonised data collection systems, methodological approaches, and identification of new or emerging issues,
- Examples of successful EFSA stakeholder Discussion groups;
Emerging Risks, Chemical Occurrence Data, GMO Allergenicity, MATRIX – electronical submission of applications for regulated products, Endocrine Disruptors, Feed Additives

DISCUSSION GROUP ON BEE PARTNERSHIP

- EFSA is ready to facilitate meetings of a Bee Partnership discussion group as part of its new approach of engaging with stakeholders
- This discussion group will draft Terms of Reference for the Partnership and its objectives,
- The final proposal to be presented at the EU Bee Week High Level Conference in 2018
