5. Scientific topics for discussion

5.1. Discussion on an application regarding a detoxification process of groundnut press cake from aflatoxins by ammoniation (EFSA-Q-2020-00504)⁴

The standing WG on detox processes in feed reviewed the documents and the information provided by the feed business operator. A list of requested clarifications was formulated, and additional data were requested by the WG. Pending the requested information, the WG cannot proceed with its risk assessment.

5.2. Discussion on an application regarding the processing conditions which make the ambrosia spp. seeds unviable (EFSA-Q-2020-00501)⁵

The WG considered that the information provided in the dossier is not addressing the acceptability criteria as they are provided in EC Reg 2015/786 and therefore a complete dossier needs to be provided.
